Contact Person: Mark Cramer

Email: mark.cramer@ky.gov

Phone: 502-564-3400

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes deer hunting seasons, application procedures, and other matters pertaining to deer hunting on wildlife management areas (WMAs), state parks, other public lands, and federally controlled areas that differ from statewide requirements.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish deer hunting seasons, limits, and methods of taking deer to control and manage deer populations and hunting pressure on WMAs, state parks, other public lands, and federally controlled areas.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 148.029(5) authorizes the Department of Parks, in cooperation with the Department of Fish and Wildlife Resources, to implement wildlife management plans on state parks. KRS 150.025(1) authorizes the department to promulgate administrative regulations to establish open seasons for the taking of wildlife, to regulate bag limits, and to make these requirements apply to a limited area. KRS 150.390(1) prohibits the taking of deer in any manner contrary to any provisions of KRS Chapter 150 or KAR Title 301. KRS 150.620 authorizes the department to promulgate administrative regulations for the maintenance and operation of the lands it has acquired for public recreation.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the administration of the statutes by establishing requirements for effectively managing deer herds on WMAs, state parks, and other public lands, including the establishment of requirements to ensure safe, orderly hunting practices on public lands.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment shortens the archery and crossbow quota hunt at Big Rivers WMA by one week, creates quota archery/crossbow and modern firearm hunts on Higginson-Henry WMA, discontinues deer hunting on a portion of the Sloughs WMA after October 31, establishes preference points to incentivize harvest of female deer during quota hunts

on Taylorsville Lake WMA, moves the West Kentucky WMA quota and youth mentor deer hunts from December back to November, makes minor structural changes to deer hunts at three state parks while adding a hunt at two others, and clarifies the public deer hunt management process on the Kentucky portion of Reelfoot National Wildlife Refuge.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to maximize hunter opportunity without harm to the deer resource.

(c) How the amendment conforms to the content of the authorizing statutes: See 1(c) above.

(d) How the amendment will assist in the effective administration of the statutes: See 1(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: For the 2017-18 deer season, there were approximately 257,898 resident and 27,435 non-resident Kentucky deer hunters. Additionally, 7,364 people applied for quota deer hunts administered by the Kentucky Department of Fish and Wildlife Resources.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Those who hunt deer on WMAs and state parks must comply with the individual hunt requirements for those sites, as listed in the fall hunting guide produced by the department.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no direct cost to hunters as a result of this amendment to the administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Deer hunters will benefit because the amendment will improve the quality of the hunting experience on several WMAs and state parks, as well as create additional archery and crossbow deer hunting opportunities at two other state parks. In addition, the deer hunting regulations at Reelfoot Lake NWR will become easier to convey or explain, and this should help to improve hunter compliance.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will not be an additional cost to the agency to implement this administrative regulation.

(b) On a continuing basis: There will not be an additional cost on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase a fee or funding to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish or increase any fees directly or indirectly.

(9) TIERING: Is tiering applied? No. All persons who hunt deer on WMAs, state parks, or other public lands are required to abide by these requirements.
